

Aniolek signature templates

Midwest Native Skills Institute

Write your signature in black ink only.

Choose a box size that lets you sign your name with a comfortable hand, not too cramped and not too expansive.

Your signature should fill as much of the length or height of a box as possible. The signature does not have to be centered if shorter or narrower than the box, but it must fit entirely within the box.

Sign in multiple boxes, cross out any you don't like and mark your preferred signature(s).
